## Ring in the changes...

**We all remember Arkwrights famous till in Open all Hours. Arkwright would have had a fit at the thought of a modern computerised till.**

Well at Brundall Home Hardware we've finally taken the decision to improve the way in which we process sales and place our supplier orders. Over the next couple of months we will be carefully cataloguing all of our stock and introducing a new modern till system. We hope to have this installed during the Spring.

In addition the computer will enable us to update our customer loyalty scheme, whereby customers will be offered a convenient credit card style card which can be used to make savings with us.

The decision to install this new system has been a difficult one and we are pleased to advise that we are being supported by a Norwich based company called EPOSNOW.

We intend to make every provision to ensure that migration to the new till system will be smooth. However, being realistic I expect that there will be a few hiccups along the way.

This new system will be new to all staff, including me, and we would respectfully request your patience and understanding whilst we gain experience in its use.

Our customers should see immediate benefits. You will be presented with a detailed receipt of your purchases, which is ideal if you purchase a product with an extended manufacturer warranty.

We anticipate that the system will assist us with stock control ensuring that those essential items that many customers require are always in stock. We also hope that we will gain more detailed insight into the profitability of our business which will ensure our continued presence in Brundall.

It is likely that we will close the shop for half a day when the new equipment is installed. This will enable staff training and ensure equipment is fully functional before we process customer transactions. We will publish the date in advance.

## Key Cutting

**We have been cutting keys in Brundall since 2007 and in that time we have cut literally thousands of keys.**

We specialise in cutting domestic cylinder and mortice keys, including door, gate, padlock and garage keys.

We believe that we offer a very competitive price for our key cutting service with a single cylinder key being cut for just £4.25 and a mortice key for £5.00. Please compare our prices with the leading high street key cutters. We are confident that we offer value. In fact if you have more than one copy of the same

key our price will drop even further.

Due to the complex nature of locks there are occasions when a new key may not work. We offer a money back guarantee on the cost of your new key.

[Key accessories also available.](#)
