

Fathers Days

18th June 2017

A DIY store is the perfect place to find all sorts of gifts for Father's Day.

Lots of tools, DIY equipment and gardening products in store. Also we have a wonderful range of cards for that special Dad.

Yankee Candle also offer men's fragrances such as Barber Shop.

News in Brief

- Traditional light bulbs are no longer available but the good news is we have extended our range of LED alternatives. A budget range is now available in store.
- Don't forget that you can recycle all of your domestic batteries in store. We are unable to take computer or car batteries but anything that will fit into the recycling container is fine.

All change at the till end of the business

Well after all of the planning we finally installed our new till system.

The final installation went well, although, I had a few additional grey hairs during the following few days. We are now getting used to processing transactions through the till and starting to see new management information popping out of the back end of it. Useful data

which will hopefully aid our business in the future.

With over 7000 products, there was an inevitability that not everything would be correctly recorded and we have been busying ourselves sorting out any discrepancies. We hope you also appreciate the new method of accepting card payment. We trust that this is more convenient.

At the end of May we launched our new loyalty programme. Pat Goody was the first customer to sign up. As a gesture of our appreciation Pat was presented with a hanging strawberry basket.

To apply for your own loyalty card please call in store and ask for an application form. We require just a few basic details and we will be pleased to issue you with your new card.

1 point will be awarded for every £1 spent. A minimum purchase of £5.00 is required. Your points will be recorded in the till system and can be used to make subsequent purchases in store. Points only available for in-store purchases.

We hope that this new loyalty scheme will make shopping at Brundall Home Hardware even more enjoyable.

Unwanted Gas Cylinders

Do you have any unwanted gas cylinders kicking around in your shed or garage?

If you do please drop them into us at Brundall Home Hardware. We will ensure that they are returned to the respective gas suppliers.

CALOR

Ant, Fly and Wasp Products

Summer brings its own problems. Here I'm talking about the unwanted guests that come in the form of ants, wasps and flies.

We carry an extensive range of products which will help you control these pests. One of our most popular solutions is the ant baiting trap. These are small containers which hold a chemical which the ant takes back to the nest. This helps destroy the nest and prevent any further infestation in your home. This year we have introduced a new range of products from a company called Insecto. We have been impressed with this companies products as they can be more effective than some of the more

well known brands.

We also offer a number of products which help prevent insects entering your home, such as door and window screens.

So when you find yourself troubled by these unwanted guests please remember that your local hardware store has everything you need to fix the problem.

Staff are more than happy to assist with our range of products.

Keep your plants well watered.

So you've spent your money on making your garden look attractive with a nice range of plants and now your watching them dry up in the sun.

Help is at hand with our range of watering products. We have a wide range of hose fittings from Hozelock and the professional range of hose fittings from Draper. One of the most useful products is an extending spray lance which is ideal for watering the back of your borders and hanging baskets.

We think it is so good we use them for watering the garden centre.

Not needing a hose to water your garden? We have a good selection of watering cans and replacement can roses.

If you are still planting out your summer display then add some water retaining gel to your hanging baskets and planters. A top tip is to place a plastic bag in the bottom of your hanging baskets to help retain moisture.

Happy Gardening!!!!

CAMPS[®]
international
ETHICAL JOURNEYS WITHOUT COMPROMISE

In the summer of 2018, a group of students from Thorpe St Andrew School will be going on a charity expedition to Borneo with Camps International to help communities and carry out conservation work. We are required to fundraise the money for this trip and as part of this, we are doing a car wash on the 24th of June at Brundall Home Hardware between 11am and 3pm. It would be much appreciated if you would come and support us in our efforts.

Charity Car Wash

Card Payments

We have now improved the way in which we take payment for your good and services. You will note that we have introduced new payment devices which we hope will make things easier for our customers. Contactless payment for transactions up to £30 is a convenient and fast way to pay. We are happy to take a card payment for any transaction over £2.00.
