

Spring DIY

Promotion

From the 12th February we will be running our Spring DIY promotion. Look out for our catalogue being delivered to you home. 20 pages of excellent special offers on seasonal lines to improve your home.

You will find most lines available in store. However, all products can either be ordered by speaking to one of our staff or ordered on-line via the link on our website.

A bit of a spring clean...

We have finally gained access to some new storage space.

We are always struggling to know where to place our additional stock and frequently find ourselves hampered by the logistics of running this business. Hopefully things will start to improve.

From the 1st Feb we have been able to use the empty residential flat above the shop as additional commercial storage and to help improve staff accommodation.

The flat has looked tired from the front for a number of years and we plan to try and improve the look of the building. The interior of the flat has had some remedial work undertaken on it during the past few years but is still somewhat inhabitable for residential purposes.

However, it will provide excellent storage facilities now that we have cleared it of unwanted rubbish and old furniture. The next step is to install some racking on which we can

Flat Hallway

clearly display our spare stock. This will help us ensure that we know what stock we are holding and hopefully ensure that we maintain correct stock levels.

The really good news is that we will be able to move some of the seasonal stock that we have distributed around the garden centre into one dry and secure location. We will now be able to tidy up our displays in the garden centre and make the whole area more attractive.

To help with this we will have some new display stands arriving towards the end of February. Please expect a little disruption as we start to move stands around and place new season stock in more accessible locations. We really hope that you will notice the changes which we plan to have completed ahead of the Spring gardening season.

The flat contained a number of old kitchen appliances such as a washing machine and cooker. We were uncertain what to do with these until Simon Barber contacted me to see if he could clear them for scrap. Simon is interested in collecting any old metal or domestic electrical products. He was most helpful and cleared these items within a day of speaking to him. Simon would be pleased to hear from anyone seeking to dispose of

**YANKEE
CANDLE®**
the world's best *loved* candle™

10 Melts

Free local delivery on orders over £15.00. Subject to availability and weather conditions.

DON'T FORGET

The legislation relating to the sale of mouse and rat poison changes at the end of this month. Our existing highly effective treatments will no longer be available for sale. If you require stock of products such as our popular Sapphire Paste please do call in store to make your purchase.

We are unable to obtain any fresh stock of these products. New products will be coming onto the market next month.

Brundall's hidden card shop.

Have you discovered our extensive selection of greetings cards?

One of our most popular lines has to be our range of greetings cards. We strive to stock a diverse range of styles and titles to suit every budget. Prices start at just £1.00 and we are confident that you will find our overall prices very competitive when compared with the major high street card stores.

We have literally thousands of cards in store and if you are unable to find a card that suits your purpose please do ask a member of staff for assistance. We have recently created a card library in one of our stockrooms

and this contains a good selection of cards just waiting for space on the main card stands.

At this time of year we are delighted to refresh our stock with all of the new designs arriving from our suppliers. Boxes of new cards have arrived in recent weeks....

Stock to shelves...

We really enjoy meeting and serving the hundreds of customers who visit us each week. However, our team spend many hours ordering, unloading and packing hundreds of new stock items.

Saturday is the main day of the week for ordering stock. We place two major pet food orders and arrange for our weekly order from Home Hardware. These days most ordered are placed electronically which means that we can instantly see stock availability at our suppliers. Tuesday is our main delivery day when all of these bulky deliveries arrive. You will frequently see us unpacking boxes, checking prices and placing new stock onto

the shelves.

We also receive regular visits from some suppliers who help review our stock holdings and take an order. This is a more traditional way of doing business and many of these company representatives have become well know to us over the years. For example Nigel, from Toolbank enjoys a regular toasted tea-cake with his cup of tea.

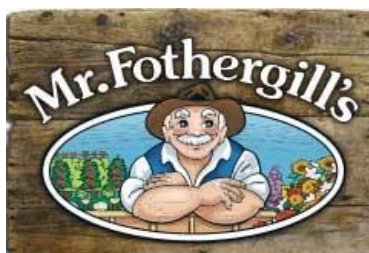

Throughout the year we order from over 100 different companies. This helps us maintain a wide variety of interesting and useful products on our shelves.

We appreciate the hard work of all staff who make this all possible.

Spring Primroses

3 packets of Mr Fothergill's seeds for the price of 2.
