

It's been a hot topic this past month with everyone bombarding us about **GDPR**. This is the new government regulations which came into force on 24th May 2018 obliging any company who holds personal data to act in accordance with the new regulations.

Having picked our way through the complicated process it became apparent that we need to resign up every customer who holds one of our loyalty cards. Over 800 customers. We need your express permission to hold your information and to be able to contact you through media such as email.

Almost without exception our customers have been very supportive of our need to comply with the law. So thank you to the very many customers who have helped us in a cheery and obliging manner by updating their data preferences. We hope everyone will be happy to sign a new form. If, however, this does cause you a problem we will be happy to redeem any points and close your card.

Our stationery is never stationary...

Over the past year we have seen a significant increase in the demand for stationery. Many customers now know to call into Brundall Home Hardware for all of their postal requirements.

To help improve access to our expanding range we have started to make some additional changes in store. We have relocated the ice cream freezer to an area nearer the till which we hope will make it easier for everyone.

The move will enable us to improve the presentation of our haberdashery department whilst making it easier to select knitting wool.

Additional wool stock is held in our new upstairs stock rooms so you can be assured that we will be able to help you with your wool selection.

All of these changes will enable us to expand the stationery display at the top end of the shop.

In addition to a wide range of envelopes we also stock padded postal bags, postal boxes, brown paper and parcel tape. Very basic stuff but essential when needing to send a

parcel.

Looking for gift wrap, gift bags, helium balloons and greetings cards. You can be sure to find what you are looking for at Brundall Home Hardware. In fact we often receive very positive comments about our selection of greetings cards. So why travel further afield when you just need to call in and see what's in store.

As always we had good fun welcoming the children and teachers from Brundall School for their annual visit to the garden centre. A planting session and a chance for every child to have a go at operating the real shop till. A packet of seed for every pupil kindly donated by Mr Fothergill's seed merchants.

Brundall

Free local delivery on orders over £15.00. Subject to availability and weather conditions.

We've moved our ice cream freezer.

Now even easier to find your favourite ice cream at Brundall Home Hardware.

It's Smelly Bin Season...

We've hit that time of year when we are into smelly bin season.

No matter how careful you are to keep all of your rubbish in bags your general rubbish wheelie bin always seems to have an unattractive odour about it. In the worst case scenario it can become a breeding ground for the unwanted fly or two.

Whilst it is difficult to completely solve the problem during hot weather there are some ways in which the problem can be minimized. Jeyes Fluid has been a trusted product for over 140 years. There's a good reason it is one of the best products for providing disinfected surfaces in and around the garden. Washing

your bin out with Jeyes Fluid will help keep it smelling fresher and reduce the chances of maggots infesting your bin.

We also carry a range of wheelie bin liners. This helps to keep your bin clean and can be replaced every time that your rubbish is collected. These bags are also excellent for protecting large items being stored in garages, sheds and lofts.

We also sell Jeyes Bin Fresh powder.

Vicar Training

Many of you are aware that I am training to be a part-time unpaid vicar.

It seems staggering but this month I will complete my second year of training with just one more year to go.

I am so grateful to the very many enquiries that I receive every week from friends and customers asking how the training is progressing. I know many of you are also encouraging me through prayer. For this I am very grateful as it has helped support me through the training so far.

This year has been particularly interesting with a placement at

Great Yarmouth Minster. Evening classes have included training modules on Spirituality and Christian Ethics.

A portfolio and another written assignment to complete by the end of the month, then a few weeks rest before the last year starts with a weeks summer school in August.

If the coming year continues well I anticipate becoming a Deacon at the end of June next year and a Priest in June 2020.

It is expected that I will continue to run Brundall Home Hardware and my church activities, at Stalham Church, will run alongside my day to day work here. Andrew.

Pest Control

You may recall from an earlier newsletter that the regulations concerning the use of tradition rat and mouse poisons changed at the beginning of March. This meant that traditional controls had to be sold in smaller quantities and the potency of the product has changed. We've been waiting for new stock to arrive from our supplier Lodi. They are a major supplier of pest control solutions to the commercial sector and they have developed a new range for retail customers. Our product range remains an effective means of controlling unwanted vermin.
